

THE TASK FORCE FOR GLOBAL HEALTH

The Task Force for Global Health, based in Atlanta and founded 40 years ago, works with partners in nearly 140 countries to eliminate diseases, ensure access to vaccines and essential medicines, and strengthen health systems to protect populations so that people can achieve their full potential.

Eliminate Diseases

- Polio
 - Polio eradication surge capacity
 - Polio antivirals initiative
- Viral Hepatitis
- Neglected Tropical Diseases (NTDs):
 - Intestinal Worms
 - Leprosy
 - Lymphatic Filariasis
 - River Blindness
 - Schistosomiasis
 - Trachoma
- Facilitate operational research on NTDs

Ensure Access to Vaccines

- Support low- and middle-income countries with COVID-19 vaccine deployment
- Build immunization capacity for future respiratory pandemics and epidemics
- Strengthen low- and middle-income countries' early warning disease surveillance systems
- Advance the science of vaccine safety
- Equip families to make informed decisions about immunizations

Strengthen Health Systems

- Train and support field epidemiologists worldwide for disease surveillance and outbreak response
- Equip health agencies to effectively use data to improve public health
- Lead cross-sector alliance improving access to quality donated medical products
- Lead partnership for collaboration on large-scale health campaigns
- Build awareness, evidence and capacity for public health compassion and ethics

Our Reach

Nearly 140 countries

Our Partners

Ministries of Health
National Public Health Institutions
World Health Organization
Centers for Disease Control & Prevention
Private sector partners
Government partners
Foundations
NGOs
Civil society organizations

Our Impact

In the 40 years since The Task Force was founded, child mortality has dropped by 60 percent (since 1990), polio has been reduced by 99% (since 1988) and 50 countries have eliminated at least one NTD. Among the ways The Task Force has contributed:

5 BILLION

Treatments for river blindness & lymphatic filariasis

300+ MILLION

People treated for blinding trachoma in 40 countries

22,000+

Field epidemiologists trained in 150+ countries

CONRAD N. HILTON
FOUNDATION

Recipient of the Hilton Humanitarian Prize for nonprofits that have made extraordinary contributions

As a formal partner of the World Health Organization and the United Nations, through our non-State actor agreement, The Task Force engages in global negotiations to improve pandemic response and preparedness and advocate for strong public health systems

Fiscal Year 2024 Financials

In-kind contributions are donations of medicine to prevent and treat diseases such as trachoma, lymphatic filariasis and onchocerciasis.

Revenue

\$96.9 M

*Excluding in-kind contributions

Program Support: 86%

Indirect Cost: 14%

Expenses

Program Expense: 86%

Administration & Fundraising Expense: 14%
